REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: No prior art of record discloses a silicon rubber composition comprising about 20 to 40 wt.% of hydrocarbon oil based on the weight of rubber and oil.

Nakamura (US 5,725,922) discloses a composition comprising a silicon rubber and a hydrocarbon oil. The highest concentration of the oil would be around 16.7 wt.% of the composition and Nakamura suggests that the concentration of the oil should be less than 16.7 wt.%. There is no motivation to employ a composition comprising more than 16.7 wt.% of the oil.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
